

# DÉTECTEUR D'INCLINAISON

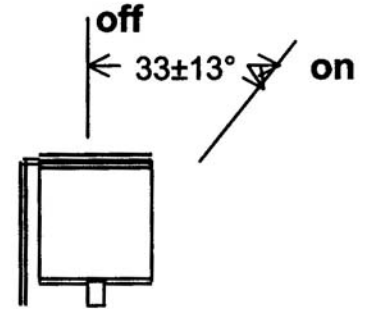

## Modèle 603

Référence : 9438

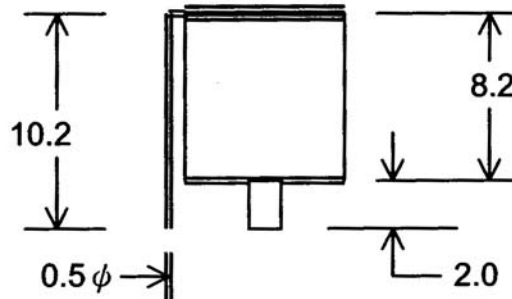

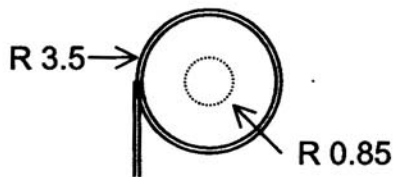

### Tilt sensor 603 specification

- Tilt degree : Normally open  $33^\circ$  (off  $\rightarrow$  on), (other tilt angle are available.)
- 10,000 times on-off lift test.
- Machinery type, non-mercury inside.
- Max. input: 10 Watts

### Dimension:

unit: mm

### Remark:

1. contact impedance: 2.0 Ohms Max.
2. tilt angle: 20~45°
3. Gold alloy plated
